Lucky Attempt

- Special attempt that appears from time to time and changes the level gameplay
- Players can destroy barrels that contain rewards to collect them
- In order to claim the rewards the player needs to win the level in this attempt

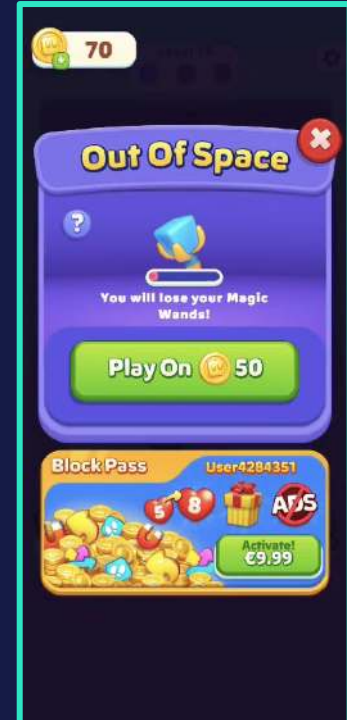

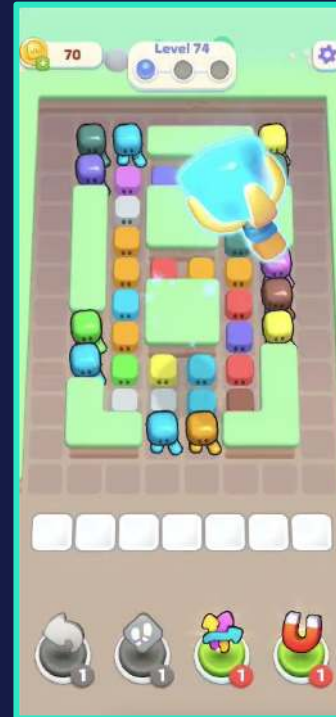

Quest System

- System that provides quests to the players
- Players can construct buildings by completing quests
- Rewards are given to the players when achieving milestones

Win Streak Feature

- Permanent feature that triggers a Magic Wand when beating levels in a streak
- The Magic Wand helps the players when playing levels
- When failing a level the players lose the Magic Wand

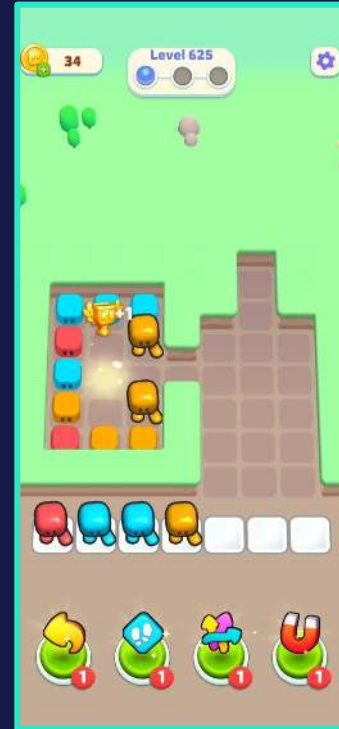

Endless Offer

- Sequential offer that combines free and paid products
- Players need to claim the products one after the other, they can't skip steps
- The offer is operated like a LiveOp and it is reskinned periodically

Rockets (Power-Up)

- Power-up that appears in some levels and that destroys blockers
- The power-up prioritizes the blockers according to each situation
- The rocket can trigger other rockets to create a chain reaction

Bomb's Ballet

- Single-player event where players can collect tokens in the first try
- Players will receive rewards for reaching certain milestones
- If the player finds 3 stickers of the character the grand prize is given

Jigsaw

- Single-player event where tokens will spawn in the levels and players need to win the level to collect them
- Tokens are multiplied by 2 when the player completes a level in the first try
- Players will receive rewards for reaching certain milestones and a grand prize when completing the event

Bonus Levels

- Relieve levels without fail condition where players can collect tokens
- The tokens are converted automatically to coins
- Bonus levels appear from time to time in the main level progression to give a break to the player

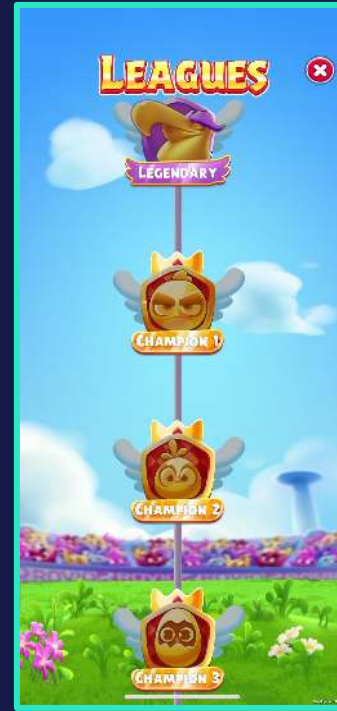

Kite Festival

- Competition where players need to collect points completing levels in a streak
- Players decide when to submit the score accumulated to surpass other players
- Top players receive great rewards

Leagues

- Permanent ongoing competition where players are promoted and demoted along ranks
- Score is collected by performing different actions in the game
- Top players in each rank receive rewards

Night Sky Prizes

- Single-player event where players need to complete levels in a streak in order to advance
- If the player fails a level they fall all the way down to the beginning
- Players have nodes along the way where they can decide if they want to cashout the rewards or continue

Photoshoot

- Single-player event where players need to collect tokens in-level
- The tokens collected are multiplied depending on the win streak accumulated
- Players can exchange tokens for accessories and get rewards

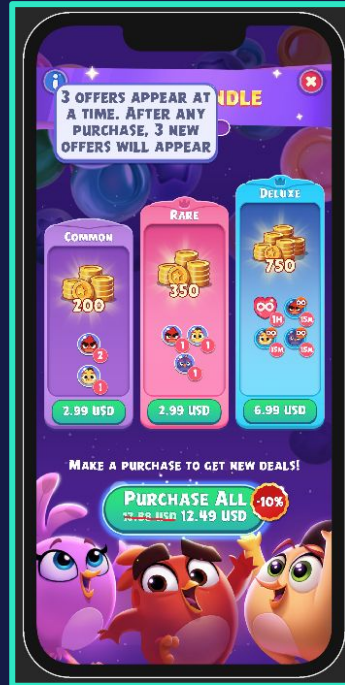

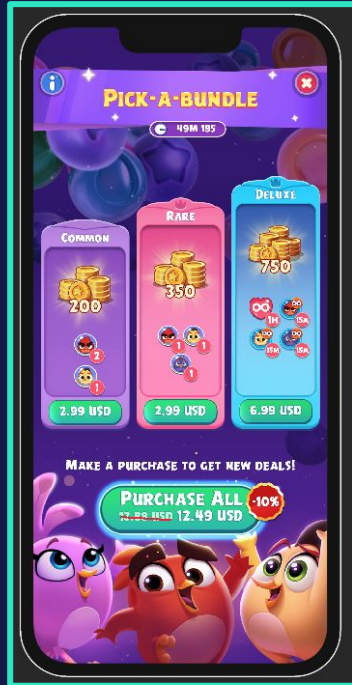

Slam

- Single-player event divided by stages where players need to surpass the score of a bird (event bot)
- Players need to create boosters in-level in order to increase their score without failing
- Players can decide if they want to submit their score or continue playing to accumulate more score

Pick A Bundle

- Timi-limited offer where players can buy a product from a selection of 3 or buy them all
- The offer refreshes after every purchase showing new products to the player
- The prices follow the goldilocks principle to present the products*

*The prices and content of the offers in the screenshots are not the ones used in the game

Piggy Bank

- Time-limited offer where players need to play levels in order to fill the Piggy
- After reaching a certain threshold players can buy the Piggy and obtain the coins accumulated
- The amount of coins that a player can accumulate is limited by a cap

The price and content of the offer in the screenshots are not the ones used in the game

Daily Event

- Weekly cycle of daily effects and quests
- There are two kinds of events, effects and quests
- Effects are passives in the game that benefit the player and quests are goals that provide a reward

Recurrent Incremental Product

- A more powerful product with every attempt in the level
- There's a product offered when failing a level to continue playing
- With every attempt failed in the level the product value increases

Bank of Lives Lost

- Turning used lives into a product that players can buy
- Every live lost goes to the Super Heart
- Once the Super Heart is full the player can pay to get unlimited lives for 30 minutes

Team Mission

- Players are grouped in teams of 5 and they need to collect point to win prizes
- Players, individually, need to collect points by playing the game and contribute to the team
- Milestones give rewards to all the team members

Bonus Levels

- Short levels with distinctive non-puzzle gameplay
- Players can get special prizes by playing the bonus level
- Players have to dodge hazards and catch gems to get points

Super Diamond

- A powerful item that provides temporary invincibility
- The Super Diamond shows up occasionally while playing the game
- It provides unlimited moves for a few seconds

**That's all
Thank you!**
