

A CARD BATTLER RPG

Made with Unity

+ IN-HOUSE DESIGN TOOLS

State Machines - Behaviours - Map Editor
Card editor - Encounter Simulator

GAME MADE BY

MAGNETIC

DECK DUNGEON

POKER COMBO DUELS THROUGH A ROGUELIKE DUNGEON

HOW IT WORKS

Build a deck, then fight down a roguelike dungeon of monsters and bosses. Each turn you play cards as poker combos (pairs, flushes, full houses) to attack and defend; the stronger the hand, the harder you hit. Enemies telegraph their next move, so every fight is a read-and-respond duel.

MY ROLE: GAME DESIGNER

COMBAT DESIGN

Monster design, enemy actions

ENEMY AI

State machines, behavior trees

CARD & DECK DESIGN

Cards, combos, starter decks

GAMEPLAY BALANCING

Difficulty curves, win rates, data

FORM FOLLOWS FUNCTION

BALANCING ENEMY STATS FOR VARIED GAMEPLAY

An enemy's look is authored to match its stats and behaviour, so the player reads its threat at a glance, before the first turn. Three enemies, three ways to be dangerous.

STALKING DEATH

ASSASSIN

Heavy burst at 3 hits/turn, but 55 HP and low defense. Win the race by killing it first.

CARBONIZED MINER

TANK

Blocks and self-heals through a long grind; low, slow damage. Outlast it with steady pressure.

ACID OOZE

CASTER

Weak hits, but heavy casting jams your hand and deck. Rush it before the disruption piles up.

COMBAT STATS — MAGNITUDES

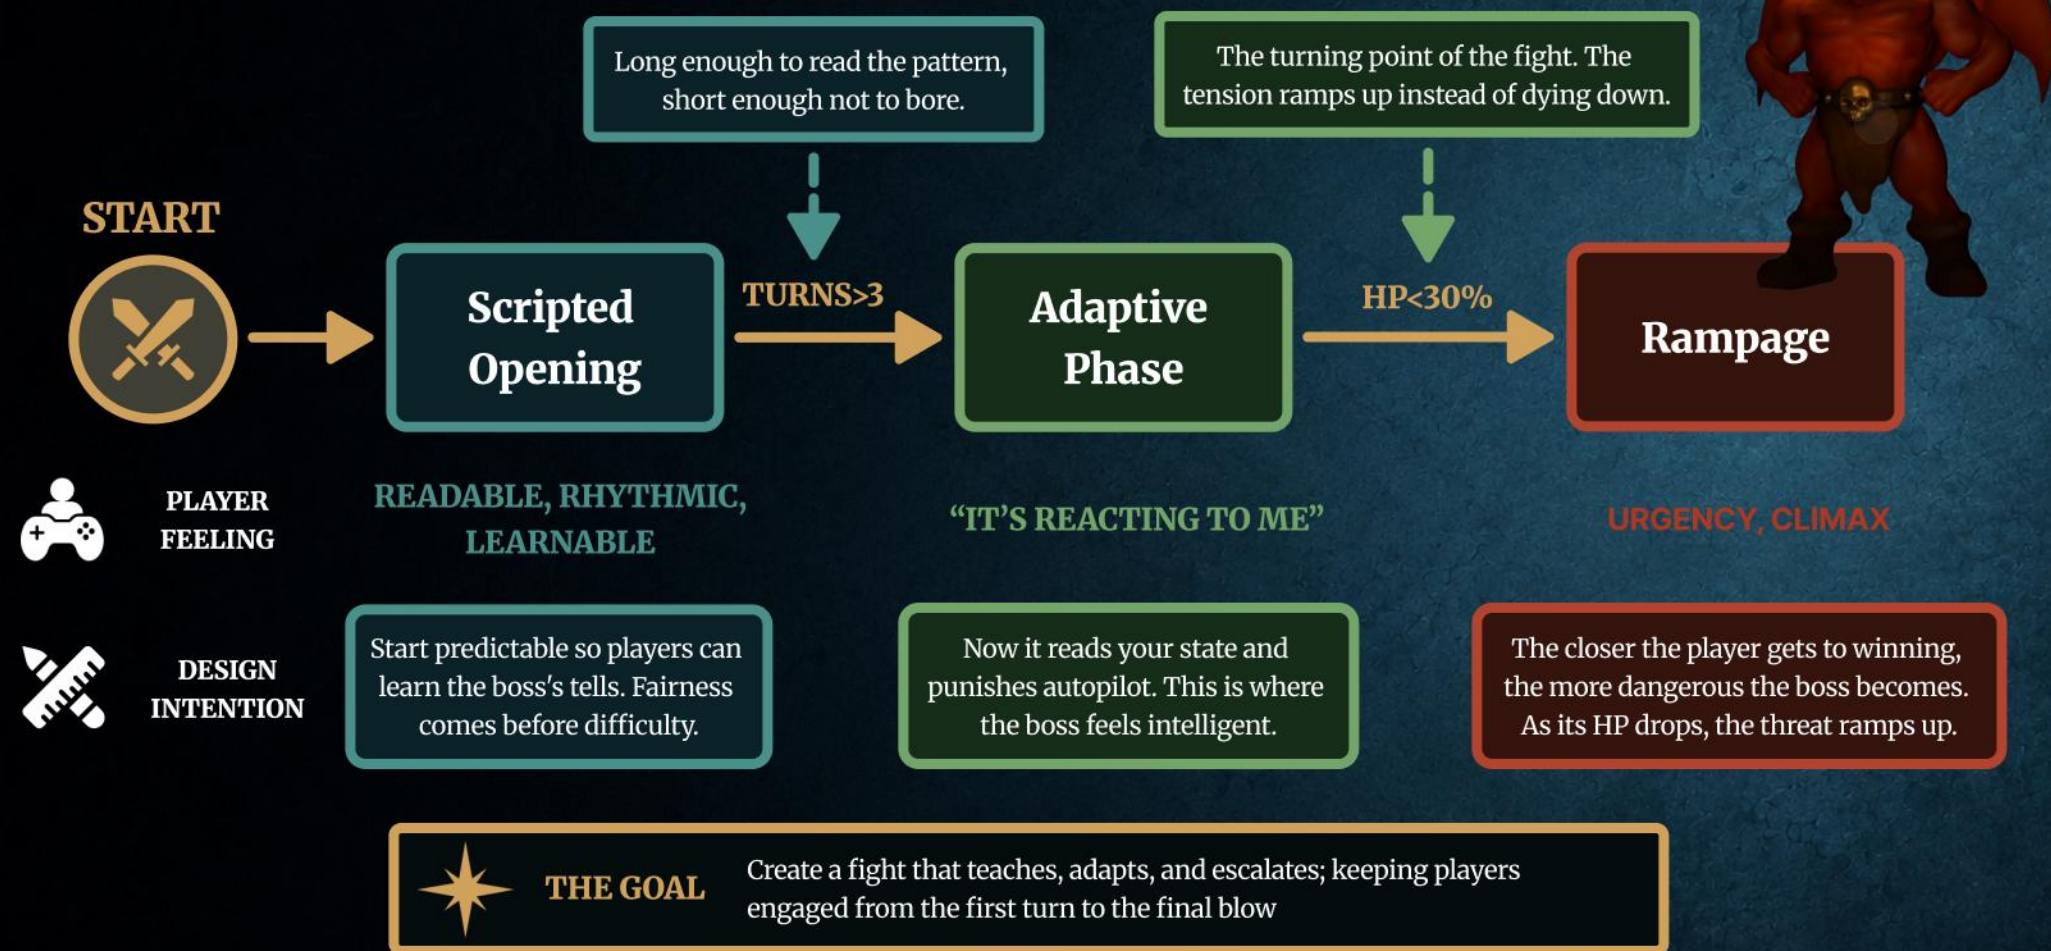

bars normalized per stat • labels = real values

BOSS FIGHT ANATOMY

A STATE MACHINE THAT CREATES TENSION AND REWARD

INSIDE THE STATE MACHINE

CREATING COMPELLING FIGHTS USING BEHAVIOUR TREES

Each state expands into a behaviour tree.

SCRIPTED OPENING

A fixed 3-turn loop

Attack

Jinx

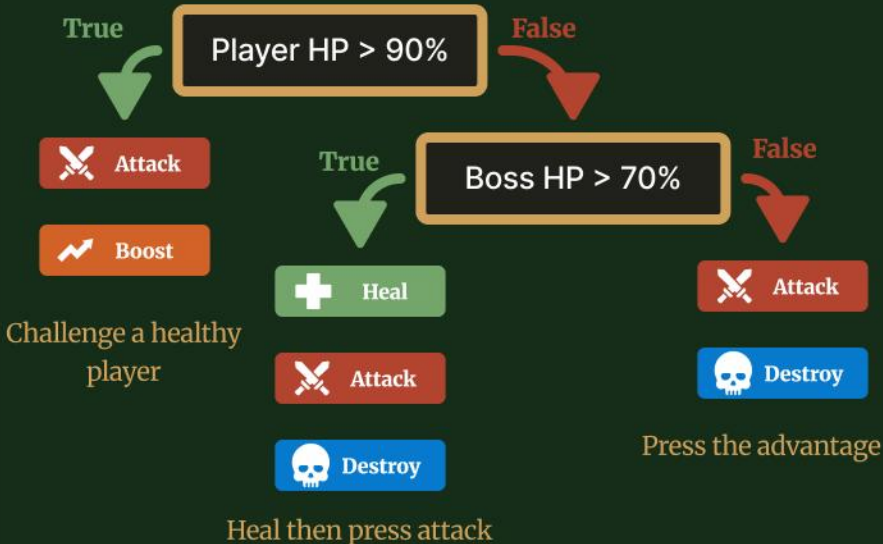

Destroy

Predictable: let's the player learn the boss's tells before it adapts.

ADAPTIVE PHASE

Reads player and boss state

RAMPAGE

Fixed loop, one-way

Attack

Boost

All-out and irreversible.
Objective: defeat the player

Deal damage

Increase attack

Destroy player's card

Deck disruption ability

Increase hp
